

# Connectivity Solutions

## SanDisk ImageMate® Readers/Writers

The ImageMate CompactFlash®, ImageMate 5-in-1, and ImageMate 12-in-1 Readers/Writers offer quick and easy transfer of images and data from your memory card to your computer with the touch of a button. Each easy-to-use Hi-Speed USB 2.0 ImageMate Reader/Writer is backward compatible with USB 1.1 ports, and includes Adobe® Photoshop Album 2.0 Starter Edition for organizing and viewing digital images.

## SanDisk MobileMate™ Readers/Writers

Easily transfer files between your mobile phone, digital camera or PDA and a computer with the SanDisk MobileMate Readers/Writers. Plug-and-play portability means you will always have access to important data. The MobileMate Readers/Writers feature a Hi-Speed USB 2.0 port (backward compatible with USB 1.1) for fast and easy data transfer.

## SanDisk V-Mate™ Video Memory Card Recorder

Now watch your favorite TV programs and movies whenever and wherever you want! The award winning SanDisk V-Mate<sup>†</sup> is a Video Memory Card Recorder that works like a video cassette recorder but records onto a flash memory card. You can then play back recorded video content by simply inserting your flash memory card into a compatible mobile phone, handheld game console, PC notebook, PDA or portable video media player.\*\*\*\*

## SanDisk Cruzer® USB Flash Drives

Cruzer® Titanium Plus is a new USB flash drive that gives you easy and secure access to your data anywhere, even if you don't have the USB drive with you. Cruzer Titanium Plus gives you the confidence to store all your important data on it thanks to the combination of secure online backup location<sup>††</sup>, ability to restore accidentally deleted files<sup>†††</sup>, password protection and AES hardware encryption, and rugged, crush-resistant, metal case.

Our Cruzer® Titanium offers speed, strength and style in a rugged case.

The Cruzer® Contour™ is a sleek, stylish high speed USB drive, preloaded with U3™ compatible software. Cruzer® Contour, Cruzer® Titanium, and Cruzer® Micro each include SKYPE®, U3 software, and feature a retractable USB connector.

Cruzer® Tag, Cruzer® Snap, Cruzer® Fleur, Cruzer® Slide and Cruzer® Gator™ are stylish USB flash drives with an extra twist—express yourself and store your favorite music, photos, videos, games and files.

# Sansa® Audio Video Players

Play your digital music and videos with the SanDisk Sansa line of stylish and portable Audio Video players.

## Sansa® View

Your movies. Your TV shows. Videos. All in a sleekly designed device that fits in your pocket. Less than half an inch thick, personal videos and photos come alive on a large color screen. Listen to MP3s, FM radio and audio books with big sound. And if you need more entertainment, there's a microSD™ expansion slot. So, sit back and enjoy the View.

## Sansa® Shaker™

To change songs, shake it. Want to dance? Shake it. The Sansa® Shaker™ makes music fun. And with a built-in speaker and two headphone jacks, kids can get together to dance and sing. Just press play and shake.

## Sansa® Clip

We didn't name it the Sansa® Clip for nothing. Clip it to your jeans. Clip it to your jacket. Clip it anywhere you want. But our smallest MP3 player still has big sound and a screen so you can sort through your music, FM radio stations and audible books with ease. It also has a built-in mic and is available in fashionable colors. Because limiting size shouldn't limit features.

## Sansa® TakeTV™

Take videos on your PC and play it back on your TV. It's as simple as using a USB flash drive: just drag files from a PC to your TakeTV player, slip it into the TV cradle, and press play on the included remote.

# Memory Cards and Devices

## SanDisk SD™

The SanDisk Secure Digital (SD) memory card is ideal for digital cameras, digital music players, smart phones, handheld PCs and more. SanDisk SD cards provide high quality, optimal performance, and are fully compatible with all SD-compliant devices.

The SD card has security features to protect data, including a write-protect switch to prevent accidental data loss.

The SD High Capacity (SDHC™) 4GB\* and 8GB flash cards are perfect for storing digital content such as high-quality photos, videos and music. Not all devices support SDHC cards. Contact your device manufacturer for details.

## SanDisk Memory Stick PRO Duo™

SanDisk Memory Stick PRO Duo cards are the ideal solution for capturing and playing back DVD-quality video in real time, or storing CD-quality music, high-resolution digital images, and more! Memory Stick PRO Duo cards are compatible with all Memory Stick PRO devices with the use of the adapter (not included).

## SanDisk xD-Picture Card™

The SanDisk xD-Picture Card provides high capacity in one of the smallest memory formats available today. Featuring rapid data transfer speeds, it is ultra compact for the most portable devices. The SanDisk xD-Picture Card is fully compatible with all xD-compliant devices.

## SanDisk Gaming Products

Memory Stick PRO Duo gaming cards turn your PSP® (PlayStation® Portable) into a fully loaded multimedia unit. Save your game data, view your photos, watch videos, and store other downloadable content. Even download games from your PlayStation® 3 and play them on your PSP. The SD Wii™ gaming cards enable you to edit your photos and download and store your games on the Nintendo® Wii. SanDisk Cruzer Crossfire™ USB Flash Drive allows you to download and access games. To further enhance your gaming experience, you can save game data and any other digital media content. Cruzer Crossfire is compatible with any device with a USB port (PC, Xbox 360®, and much more).

# Mobile Cards

SanDisk offers an extensive line of high-performance and high-quality removable memory cards supporting expansion slots in a wide variety of mobile phones. SanDisk mobile cards increase mobile phone memory capacity to enhance your on-the-go lifestyle by storing more music, videos, and photos. SanDisk mobile cards also include adapters, making it easier to transfer files between your computer and your mobile phone. Check mobile phone manufacturer for compatibility information.

## SanDisk Mobile Premier

The SanDisk Mobile Premier microSD™ cards offer premium performance and premium quality for enthusiasts wanting faster data transfer speeds along with an extended limited warranty. Mobile Premier also comes with TrustedFlash™ which is compatible with TrustedFlash devices and services\*\*.

# High-Performance Products

## SanDisk Ultra® II

SanDisk has a complete line of high-end products for photo enthusiasts and professional photographers. SanDisk Ultra II CompactFlash, SanDisk Ultra II SD, and SanDisk Ultra II Memory Stick PRO Duo are designed for advanced digital photographers who use high-end digital cameras and camcorders. The SanDisk Ultra II line also features the SanDisk Ultra II SD PLUS, an innovative SD flash memory card with built-in USB 2.0 connectivity.

## SanDisk Extreme® III

SanDisk Extreme® III CompactFlash and SanDisk Extreme® III SD cards have minimum write and read speeds of 20MB per second (MB/sec)\*\*\*. SanDisk Extreme III SD cards are available in capacities 2GB, 4GB, and 8GB\*. SanDisk Extreme III CompactFlash cards are available in 2GB, 4GB, 8GB, and 16GB capacities. Choose the format with the capacity that best meets your specific requirements. SanDisk Extreme® III products can withstand temperatures from -13 °F to 185 °F. The included RescuePRO® Deluxe software delivers the added convenience of enabling users to recover images, documents, music, or other files that they may have accidentally deleted.

For faster card-to-PC transfer, the SanDisk Extreme® III USB 2.0 Reader is available. The reader supports CompactFlash, SD, and Memory Stick PRO Duo.

## SanDisk Extreme® IV

The SanDisk Extreme® IV line of CompactFlash® digital film cards is for professional photographers who need the absolute highest performance and maximum reliability. Available in capacities from 2GB to 8GB\*, these cards deliver minimum read and write speeds of 40MB/sec\*\*\*.

## SanDisk Extreme® Ducati Edition

The SanDisk Extreme® Ducati Edition CompactFlash® card is for the photographer who demands the best performing memory card for medium format and high-end digital SLR cameras. Features ESP Technology for read/write speeds of up to 45MB/sec\*\*\*.

The SanDisk Extreme® Ducati Edition SD™ Plus is an innovative 2-in-1 device that works as both a high-speed SD card and a USB drive. Its unique hinged cover transforms the SD card, exposing a USB 2.0 plug, for connecting directly to a PC. This is the fastest SD™ Plus card available, with sequential read/write speeds of 20 MB/sec\*\*\*.

The attractive industrial design of the SanDisk Extreme® Ducati Edition USB Flash Drive echoes the performance, colors, and lines of a Ducati MotoGP motorcycle. And hidden beneath this unique exterior lies a fast, 20MB/second\*\*\* USB Flash Drive, with plenty of horsepower for storing and transferring large files quickly and efficiently.
